

## **Orange County Partnership Performance Measurement Report 2024**

### **Executive Summary:**

The Orange County Partnership is an economic development organization fostering industry growth and strengthening our community. The Orange County Partnership supports attraction and expansion projects, driving capital investment that fuels essential community services and lowers property taxes, creating a better quality of life for Orange County residents.

In 2024, the Orange County Partnership made significant strides in strengthening economic development across Orange County, NY. The organization focused on positioning the county as a premier location for advanced manufacturing. Key accomplishments include helping secure funds to prepare shovel-ready sites and facilitating and attracting industrial development.
